### **Aims and Objectives**

The NSS, which is the third facet of education, influences our social, academic, and private spheres. It helps shape students' personality by giving them the opportunity to actively contribute their time and skills to the advancement of their community and nation. Consequently, the NSS offers the perfect setting for young people and students all throughout the nation to engage in authentic social activities and grow into responsible Indian citizens.

### **Motto of NSS**

**“NOT ME BUT YOU”**

### **The Motto**

This exemplifies what it means to live a democratic life and highlights the value of selfless service, respect for the opinions of others, and compassion for other people. It highlights the fact that a person's well-being is ultimately reliant on the health of society at large. Therefore, it should be the NSS's mission to uphold this philosophy in all of its operations.

### **The NSS Symbol**

The cover page of the National Service Scheme features a symbol inspired by the chariot wheel of the Konark Sun Temple in Odisha. The enormous wheels of the Sun Temple stand for both the movement of life through space and time and the cycle of creation, preservation, and release. The sun-chariot wheel is streamlined in the symbol's design, which highlights mobility. The wheel symbolizes the never-ending cycle of life. It signifies the NSS's continuous dedication to societal improvement and development. It symbolizes both continuity and change.

### **About the NSS**

During the Gandhi centennial year of 1969, on September 24, 1969, the National Service Scheme (NSS) was established. The program was initially introduced in 37 universities with 40,000 students enrolled. The NSS now has more members than any other government

organization for students in the nation, ranging in age from +2 to college and university. The NSS today boasts one of the largest student forces in the world thanks to its over 30 lakh volunteer strength.

Up until the end of March 2018, the number of students at different universities, colleges, and higher education institutions had grown from 40,000 to over 3.8 million. These students had volunteered to participate in a variety of community service projects.

The NSS is one of the largest student forces in the world because of the strength of its volunteer corps. It works well with both non-governmental and government organizations to carry out its programs that improve community assets and provide social services and education to the poor.

The NSS brings together young people from various socio-cultural and geographic backgrounds, which benefits not only the students' personal growth but also the nation's unity and integrity. At Jadavpur University, the National Service Scheme (NSS) was implemented in 1969, and its results have been very positive.

The objective of the NSS is the “development of the personality of students through community service.”

**4. Report on a talk about “Mother Tongue: Crisis & Potentiality”  
(Date: 22.02.2020)**

On the remembrance of International Mother Language Day (February, 21) a special talk on “Mother Tongue: Crisis & Potentiality” was delivered by Dr.Nibedita Bayen, NSS Program Officer, PRTGC on February 22, 2020. Total 40 NSS students and volunteers took part in the program and gained knowledge about the values and moralities of mother tongue. Dr.Nibedita Bayen talked about language which originates in a specific socio-cultural milieu as the first identity marker. It plays a key role in shaping the personality of an individual, his thought processes, and larger view of the life and world around. The language we first learn is the one that is used at home. Mother is the first to speak to the child and his/her interlocuter for almost all the time. This language, which is passed down through parents and grandparents is the mother tongue. At the moment, the solution for this crisis is to encourage and motivate the speaking of mother tongue constantly among the younger generation. When a person is well versed in their mother tongue in today’s connected world, it becomes easier to communicate and engage with the world in general and grow wonderful ideas that can lead the world from the front.

**1. Report on the activities Eco friendly home with best out of waste & CIS**

**(Date: 14.08.2020-28.08.2020)**

The "Eco Friendly Home" initiative ran from August 14, 2020 to August 28, 2020. This is the part of Community Health Information Service (CIS). The goal of the activity was to instill in the children a sense of ecological responsibility and to raise their awareness of the challenges involved in enacting social change. In their houses and communities, there are a lot of environmentally harmful behaviors going on. Students were therefore instructed to recognize these kinds of actions, look for answers to the issues, and then put the changes into practice. Additionally, volunteers must compose a document outlining how they implemented the change.

In addition to this two-week program, the students also participated in an additional activity named "Best Out of Waste" from February 14–28, 2020, where they were asked to come up with creative ways to repurpose the waste goods from their homes. By encouraging the pupils to make use of the rubbish in their homes, this activity encouraged creativity in the students. It was requested of the pupils to provide photos of their original artwork. With a total of 20 participants, the team received up to 44 photographs. This inspired creativity in our volunteers while also assisting in the reduction of waste goods.
